The Online World

NOMINET

April 2020 saw record high numbers of .uk domain name registrations. Many were businesses moving online to survive the national lockdown.

The Cyrillic version of Belarus ccTLD saw an increase of 318% in a year of presidential unrest and protest.

Tuvalu's .tv is marketed to the TV industry and run by Verisign. The tiny island nation was able to afford to join the UN thanks to all the royalties from domain name registrations.
